Sing and Sign

5 - 11 months

An introduction to American Sign Language for Hearing Infants and Toddlers, this program is designed for families with infants interested in exploring an alternate form of communicating. The sessions use songs and games as tools, allowing you to include signing in everyday routines. It is also a wonderful opportunity to bond with your baby while supporting language development as well as attachment.

Discussions include: the benefits of signing; how to be successful; opportune times to introduce signs; motivating babies to sign; and other resources available in the community. Handouts are provided each week.
