

Child and Family Centre

# Tunes for Toddlers

18 - 30 months

This is an interactive movement and music program for parents and their children. We will explore the wonders of sound and music through the use of a variety of homemade instruments.

The use of expressive language and encouragement of sensory exploration helps young children learn. Music and movement is much more than listening and dancing. The activities, songs and instruments will help engage the senses and encourage creative expression.

This program will also include a circle time with songs and stories as well as a variety of interactive activities.

Parents will receive handouts each week designed to explore musical ideas at home and support their role as their child's first and best teacher.
