

We've Got Rhythm!

2 - 6 years

Everybody has rhythm! You just have to listen to your heartbeat to feel the power of rhythm!

This musical program is intended to create a fun and exciting rhythmic interplay - to make noise which turns into rhythm and song.

Starting with a simple pattern of rhythm using a wide variety of musical instruments, everyone joins in by adding, changing and helping to grow the sounds into music.

Eventually all families will have an opportunity to play African drums and really feel the beat and enjoy a wonderfully interactive, musical experience.
