Program Description

Play & Learn - This **NO COST** program is for 0 – 6 aged children and their parents, caregivers. The focus is on supporting your child’s learning through play. Each week includes an assortment of activities that encourage children to use their five senses and movement to explore and discover. These “hands on” activities help children develop their math, science, and language concepts in ways that are fun and developmentally appropriate. The focus is on supporting your child’s learning through play.

– To register email: markham.capc@gmail.com

Fun with Math -This **NO COST** program will give children 2 to 6 and their parents/caregivers an opportunity to learn about math in a fun and easy way. The best math activity is the one that grabs you where you are, engages your mind and takes you to the next level. Our fun activities do just that. – To register email: markham.capc@gmail.com
