## Other less common symptoms of COVID-19 can include:

- |                              |                             |   |                              |                             |   |
|------------------------------|-----------------------------|---|------------------------------|-----------------------------|---|
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | Tiredness, feeling unwell or muscle aches | <input type="checkbox"/> Yes | <input type="checkbox"/> No | Red/purple discolouration to hands, fingers, feet and/or toes, and skin may peel (COVID-toes) |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | Worsening of chronic conditions           |                              |                             |   |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | Chills                                    |                              |                             |   |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | Headaches                                 | <input type="checkbox"/> Yes | <input type="checkbox"/> No | Increased tiredness/fatigue   |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | Croup                                     | <input type="checkbox"/> Yes | <input type="checkbox"/> No | Difficulty feeding in infants   |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | Pink eye                                  |                              |                             |   |

\* these symptoms are less common and may occur in children or people living with a developmental disability

**For an up-to-date list of all symptoms, visit [york.ca/covid19](https://york.ca/covid19)**

**If your child has underlying health conditions, share this information with your day camp, child care centre or school so they are aware of possible related symptoms.**

## In the last 14 days has your child:

- |  |                              |                             |
|--|------------------------------|-----------------------------|
| Travelled outside of Canada, including the United States?  | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Had close contact with a confirmed or probable COVID-19 case?  | <input type="checkbox"/> Yes | <input type="checkbox"/> No |
| Had close contact with a person with acute respiratory illness who has been outside Canada, including the United States? | <input type="checkbox"/> Yes | <input type="checkbox"/> No |

## If your child has new, worsening or unexplained symptoms related to COVID-19:

- Do not enter and return home immediately
- Seek assessment and testing as early as possible at a COVID-19 Assessment Centre and self-isolate while waiting for result
- If test result is negative, self-isolate for 24 hours after symptom resolution, unless you have been a close contact of an existing COVID-19 case in which case please follow instructions from York Region Public Health and isolate for 14 days since last contact
- If test result is positive or test is not completed, self-isolate for 14 days (including any members of your household or people you had close contact with from 48 hours before symptom onset) and contact York Region Public Health
- If parents/guardians have symptoms of COVID-19, do not enter the child care, day camp or school and seek assessment and testing at a COVID-19 Assessment Centre and self-isolate while waiting for result
